

BESTSAND™

Golf Sand

For the playability and consistency that golfers demand. At prices golf course owners and superintendents appreciate.

Whether you're choosing bunker sand for a new course, renovation work, or to maintain existing bunkers, we deliver best bunker sand for the job. Covia, doing business locally as the Lakeshore Sand Company, is conveniently located on Pier 23 in Hamilton, Ontario where we receive our sand from the Best Sand mine in Chardon, Ohio. This allows us to quickly and efficiently ship from our inventory, keeping trucking costs to a minimum. Together, we have supplied Best Sand bunker sand to more than 400 of the top golf courses around the world.

Keep your course looking and playing its best.

Bunker Sands

Signature 500 [Tour Grade® 535] - High-quality bunker sand that delivers firm ball support and consistency season after season. Signature 500 provides the look and standard of play you want at a price that fits your budget.

- Off-white colour for reduced glare and natural appearance
- Consistent texture, quality and colour ensure long-term playability
- Sub-angular grain shape conforms and adheres to bunker slopes
- Sized to provide firm ball support

Signature 900 [Tour Grade® Signature Series] - Manufactured by crushing larger silica stones to create this very angular bunker sand. Signature 900 grains will adhere to the steepest bunker faces, giving you the best penetrometer readings for firm ball support while still providing excellent playability.

- White colour for a premium look
- Superior quality, consistent texture and colour ensure long-term playability
- Sub-angular to angular grain shape conforms and adheres to bunker slopes
- Sized to provide the firmest ball support
