

# FILTERSiL®

Filtration Sand and Gravel

WATER & ENVIRONMENTAL

## BENEFITS INCLUDE:

6 NSF certified locations

Consistent particle size distributions

Uniform chemistries you can count on

**Increase hydraulic conductivity and extend well service life**

Optimize water well performance

Dense and durable sand is resistant to degradation

Reduce pumping costs

**Highly permeable to reduce well drawdown and improve well efficiency**

**Optimize flow rates causing reduced maintenance downtime**

## Reliable solutions with crystal-clear results.

With a full range of sized aggregates, media and additives, FILTERSiL® will ensure performance and efficiency in your water production, filtration and water treatment facilities.
