Golf Sand

Great golf demands BESTSAND™

BESTSAND has long been known as a leading provider of high-quality bunker sand, greens construction mixes and topdressing sand. We are pleased to now also offer PRO/ANGLE® 100% angular bunker sand as part of our comprehensive product portfolio, allowing us to cover your bunker sand needs from every angle. You can trust BESTSAND products to bring you unparalleled performance and reliability. As your one-stop shop for top-quality sand and silica products, you can also count on BESTSAND for superior customer service and logistics. When you partner with us, you're supported by a rich legacy of expertise and performance. Trust our experts to help you find a solution that accurately meets your golf facility's needs.

Trusted by Top 100 US Golf Courses

Bunker sand

BESTSAND PRO/ANGLE - This 100% angular sand is manufactured only in northeast Ohio by crushing pure quartz. PRO/ANGLE offers unmatched durability, quality and playability. The angular grains adhere to the steepest bunker faces and reduce fried egg lies. It is off-white in color and extremely weather-resistant with industry-leading infiltration rates. Day in and day out, you can depend on this top performer to provide predictable, consistent playing conditions while reducing maintenance costs.

BESTSAND SIGNATURE 900 - Manufactured by crushing silica stones, BESTSAND SIGNATURE 900 is an angular bunker sand that provides excellent ball support and achieves high penetrometer readings. Its consistent texture ensures excellent playability, while its superior quality and striking white color deliver the look and standard of play your golfers expect and demand year after year. Consistently reliable, this top-tier sand will reduce bunker maintenance while enhancing playing conditions.

BESTSAND SIGNATURE 700 - This blend gives you the versatility to maintain the firmness you desire for championship play or for the everyday golfer, ensuring optimal performance with minimal maintenance. No matter the characteristics you specify, you'll have shot-after-shot consistency with a championship-level look.

BESTSAND SIGNATURE 500 - This high-quality bunker sand delivers firm ball support and consistency season after season. An off-white color reduces glare and gives this sand a natural, premium look. Its consistent size, texture and quality ensure long-term playability and quick draining to eliminate puddles and crusting.

Construction and maintenance

Greens Construction Mixes - Our BESTSAND greens construction mixes put facilities in top playing shape with consistent particle size and infiltration rates. Whether you are constructing a new course or renovating your greens, we can custom blend a mix to meet your specifications. Our state-of-the-art custom blending facility yields precise mixes that conform to USGA specifications for superior quality and playability.

Topdressing Sand - Our wide variety of topdressing sands keep greens, fairways and tees healthier, more playable and easier to maintain. Our high-purity silica sand is the perfect fit for frequent light brush-in applications to avoid disrupting play and amending your current root zone for better performance.

Divot Mixes - We will blend a custom divot mix of sand, topsoil and peat to meet the needs of your playing surface. It's the ideal fix for divots on both courses and driving ranges. Our sand's permeability provides an excellent environment for proper seed development; nutrients may be added to mixes for enhanced grow-in.

COVIA IN NUMBERS

BESTSAND™
Golf Sand

Coast to coast supply capabilities to ensure fast solutions

We're proud to talk about our company's 14.4+ million tons of annual sand capacity with 1+ billion tons of reserves. But it's not just capacity — it's quality. The mines we manage produce high-purity deposits, which are drilled, blasted and then excavated to become the starting ingredient of our diverse products.

To ensure you receive product reliably and quickly at the most competitive shipping cost, we have developed the industry's most comprehensive and accessible distribution network. You can rely on our high-performance golf products to keep your customers happy.
